1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Barrera on 4/2/2007.

Cancel nonelected apparatus claims 25-38.

2. The following is an examiner's statement of reasons for allowance: applicants amendment and response of 1/3/2007 have removed 112 problems & objections to specification/drawings as set forth in sections 2-5 of the action mailed 8/10/2006. Cancellation of independent claim 22 & its dependence have removed art rejections associated therewith. Claim 1 has been amended to clarify the use and configuration of the claimed "spindles" used to support & glow discharge treat the lenses, thus overcoming the rejection based on Heming et al. (6,025,013), while analogous spindle configurations used in arrays have been added to claim 12, thus also removing the art rejections thereover.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
